13-02951 CIR #

Received by: (b) (7)(C), (b) (6) at 07/03/2013 09:13 PM

## Caller Information:

Source of Call LSP/DEQ-Immediate Notification  
Parish St John  
Caller's Name (b) (7)(C), (b) (6)  
Caller's Employer DuPont Performance Polymers  
Caller's Phone # (b) (7)(C), (b) (6)  
Guaranteed Callback Number: Yes

Notified 07/03/2013 09:13 PM  
Occurred 07/03/2013 07:52 PM  
Secured 07/03/2013 07:53 PM  
Discovered

## Incident Location:

Address or Location 560 Hwy 44  
City LaPlace  
Area Latitude Longitude Section Township Range  
N W

## Company Information:

Company Name DuPont Performance Polymers  
Company Address  
City/State/Zip

Chemical	Qty.	Unit of Measure	State	RQ.	Hazard Class	ID	EHS
Butadiene, [Inhibited]	5	lbs	Gas	10	Flammable Gas	1010	No
Planned and Controlled?							
Incident Classification: Unusual Event							
Did material go offsite? Yes							
Released to: Air							
Where is air being monitored?							
If being monitored, what is highest reading obtained?							
Any off-site protective action? No							

## Weather Conditions:

Wind Direction from NW  
Wind Speed 4 mph  
Temperature 79.5 F  
Precipitation None

## Release Effects:

Fire  
Injuries #  
Fatalities #

## Details:

Pipeline relieved to atmosphere when pipeline overpressured...  
Device relieved itself...  
Release was less than five pounds...

## Fixed Site

Chemical	Qty.	Unit of Measure	State	RQ.	Hazard Class	ID	EHS
Chloroprene, [Inhibited]	Unk		Liquid	100	Flammable Liquid, Poison	1991	No

## Planned and Controlled?

Incident Classification: Site Emergency

Did material go offsite? No

Potential to Escape Facility? No

Released to: Containment area

Where is air being monitored?

If being monitored, what is highest reading obtained?

Any off-site protective action? Yes - shelter-in-place

## Weather Conditions:

Wind Direction from

Wind Speed mph

Temperature F

Precipitation

## Release Effects:

Fire No

Injuries No #

Fatalities No #

## Details:

At 0530 this morning the chloroprene was released into the containment area...

A foam has been used to control the vapor release...

At 0654 they found a part of the covering foam dissipated and vapor was released from the pit...

Additional foam has been used to contain the release...

Civil Defense has been contacted to inform them that there was no public exposure...

Shelter-in-place at the plant is no longer in effect...

Chloroprene, [Inhibited]	Unknown		Liquid	100	Flammable Liquid, Poison	1991	No

Planned and Controlled?

Incident Classification: Unusual Event

Did material go offsite? No

Potential to Escape Facility? No

Released to: Containment area

Where is air being monitored? Inside facility

If being monitored, what is highest reading obtained? Zero

Any off-site protective action? No

## Weather Conditions:

Wind Direction from	
Wind Speed	mph
Temperature	F
Precipitation	

## Release Effects:

Fire	No	
Injuries	No	#
Fatalities	No	#

## Details:

A storage tank of the material was being taken out of service...  
And was washed with water...  
But, the tank had more residual material than normal...  
The water mixture was drained from the tank,  
This wash, with the excess material, was released into a containment pit...  
The pit was foamed, which will absorb the material...

Company Name	Dupont
Company Address	560 Hwy 44
City/State/Zip	Laplace, LA 70068

Chemical	Qty.	Unit of Measure	State	RQ.	Hazard Class	ID	EHS
Calcium Chloride	14,489	lbs	Liquid				No

Planned and Controlled?

Incident Classification: Unusual Event

Did material go offsite? Yes

Released to: Ditch

Where is air being monitored?

If being monitored, what is highest reading obtained?

Any off-site protective action? No

## Weather Conditions:

Wind Direction from

Wind Speed mph

Temperature F

Precipitation

## Release Effects:

Fire No

Injuries No #

Fatalities No #

## Details:

Scaffold builder was working and scaffolding fell and broke a valve on a tank...

The material was contained and the saltwater was removed and disposed of in an on site deep well...

They removed the impacted solid and disposed of off site...

The material involved that exceeded the reportable quantity was Sodium Chromate CAS# 775-11-3...

Amount of Sodium Chromate released was 12.3 pounds...

They recently discovered that the calculations for the tank were incorrect, which led to conclusion that they exceeded the RQ during this incident...

# LSP/DEQ INCIDENT REPORT

12-01921 CIR #

Received by: (b) (7)(C), (b) (6) at 04/01/2012 04:05 AM

## Caller Information:

Source of Call	LSP/DEQ-Immediate Notification
Parish	St John
Caller's Name	(b) (7)(C), (b) (6)
Caller's Employer	DuPont
Caller's Phone #	(b) (7)(C), (b) (6)
Guaranteed Callback Number:	Yes

Notified	04/01/2012 04:05 AM
Occurred	
Secured	04/01/2012 02:15 AM
Discovered	04/01/2012 02:15 AM

## Incident Location:

Address or Location 560 Highway 44

City Laplace

Area	Latitude	Longitude	Section	Township	Range
	N	W			

## Company Information:

Company Name	DuPont
Company Address	560 Highway 44
City/State/Zip	Laplace, LA 70068

Chemical	Qty.	Unit of Measure	State	RQ.	Hazard Class	ID	EHS
Unknown	Unknown		Liquid				
Unknown	Unknown		Liquid				
Unknown	Unknown		Liquid				
Unknown	Unknown		Liquid				

Planned and Controlled?

Incident Classification: Unusual Event

Did material go offsite? Yes

Released to: Containment area

Where is air being monitored? Will not be monitored

If being monitored, what is highest reading obtained?

Any off-site protective action? No

## Weather Conditions:

Wind Direction from	
Wind Speed	mph
Temperature	F
Precipitation	

## Release Effects:

Fire	No	
Injuries	No	#
Fatalities	No	#

## Details:

Compound Name: PTZ/Irganox Stabilizer, made up of...

Chemical 1: Phenothiazine...

Chemical 2: Irganox (not required to report according to site procedures)...

Chemical 3: Min-U-Gel...

Chemical 4: Triton X-100 (not required to report according to site procedures) ...

No UN ID or hazard class information for any of these materials...

Total combined released 800 lbs...

Will determine individual release amounts at a later time...

There was a pump seal failure...

Material released to a contained pit...

A decision will be made on Monday, 04/02/2012 what will be done with the material...

## Release Effects:

Fire	No	
Injuries	No	#
Fatalities	No	#

## Details:

Drain valve opened on suction pump...  
They were in the process of lining up the chemical to the pump...  
They did not realize drain valve was cracked opened...  
They isolated the pump to stop the material from getting into the trench...  
Material that did get into the trench, they are in the process of pumping it out...  
Will call back once scene is fully secured...
